Tony, I am referring this to Bill Doney as to whether I may answer the first question.
I am referring the answer to the second to Sheri.

Dear colleagues

In the interests of sunshine I would like to share two questions put to me by residents today after the meeting that have merit and for which I am unqualified to answer:

1. Is it fair and a level playing field for an internal candidate to attend our meetings, ask questions and engage in self promotion in the town which are opportunities unavailable to other candidates, especially as the role has not been broadly posted?
2. If a candidate or applicant has a sealed government file based on work history covered by the official secrets act or similar, will that be transparent in our background checks? If not, and there is suspicion that the file may reflect an unsavory record, then what?

Best regards

Tony Prosser
