Sherry, we will post all correspondence. almost all comes from residents. I don't think the distinction is really important. We have bigger fish to fry. 😊

Chip and Dick,

I had a chance to read some of the residents' correspondence for your committee efforts.

The category for correspondence is "Residents," but there is correspondence from nonresidents.

My suggestion is you create another category called Nonresidents Correspondence, and add in the letters from those that are not Jupiter Inlet Colony residents. This would be more accurate and helpful when reviewing committee correspondence.

Again, thank you for all that you are doing for the community, and the extra work for keeping the process transparent.
