---

Dick,

I know you are under advice by counsel not to speak on this at the moment, but I remember Chip saying at one point "I can listen"

So, on that score first I want to congratulate you and thank you all at the same time for your position on cars( and the previously voted commission position) the other day at the commission meeting.

I am really worried about Dan at the moment because he is behaving as he wants without regard to the fact that we have a commission.

I know Jim as well as anyone else around town and always feel safe when he's here. He's respectful of everyone and goes out of his way to help. How one can seemingly manufacture a reason to clear him out of the way in the middle of a search, ostensibly so that he can install his deputy chief, is scary at best.

It is a critical time for our town- what is happening is not right and has to be cured.

As I said before, we will help in any constructive way possible, and I know so many people who have learned about this and are equally outraged.

I'm thankful we have you and Chip as men of integrity to do the right thing. The whole town will be behind fixing this rather complex and cancerous problem.

Thanks for "listening"..fran

Chip,

We have a real crisis in town hall as you know.

We cant have this town run by Dan and Kevin and Freeman.

I dont believe a word thats being said and want to know how you can be installed on an emergency basis to clean house and give us back integrity in our governance.

Please let me know what I can do- please
