May 31, 2023

Dear Search Committee Members, Ms Resnick and JIC Commissioners:

Our family has lived in Jupiter Inlet Colony since 1972 and we feel so very fortunate to be here.

Over all these years we have always been grateful for the JIC Police Department.

And, over the past more than 10 years, we have felt very thankful to know Captain James Matthews.

It is apparent to us that Capt. Matthews is an extremely multi-talented officer. He has assisted us in a myriad of situations:

Health emergencies, technical questions and even expertly securing a wayward buoy from across the Inlet (which had somehow ended up in the rocks next to our mangroves.) Capt. Matthews followed through over a period of weeks and made sure that the proper authorities eventually picked up the heavy buoy to be repaired and returned to its proper location.

Whatever the situations or questions we have had or the assistance needed, Capt. Matthews always knows the right solution and he always follows through.

After all his years of service in the JIC Police Dept., we know that Capt. Matthews thoroughly understands the dynamics of our little town.

Capt. Matthews is extremely knowledgeable, hard working and the added bonus is that it is always a pleasure to interact with Capt. Matthews.

We appreciate very much the diligence and hard work that the Search Committee, Ms Resnick and the JIC Commissioners are performing.

We respectfully ask and hope that Capt. James Matthews will be chosen and appointed as the new JIC Chief of Police.

Very truly yours,

Margaret and Malcolm Beyer
