

October is Cybersecurity Awareness Month - Passwords

News Release Date

10-12-2023

USE STRONG PASSWORDS AND A PASSWORD MANAGER

LEARN HOW THIS
CYBERSECURITY
AWARENESS MONTH

This week we continue to share tips on how to protect you and your family from cyber attacks. Having a strong password is a great way to keep you safe from cybercriminals. Attached is a quick reference guide about password security. These tips illustrate best practices for password security. Remember to watch out for those Phishing emails we talked about last week as they are trying to get your password. Please protect your data using these tips.
